

Localizing Your Production in China

www.ci3incubator.com

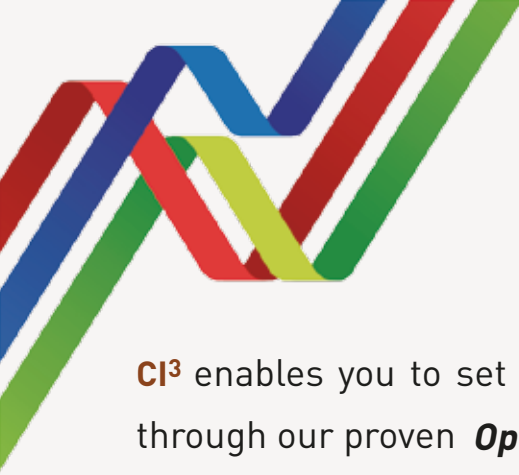

CI³ offers overseas SMEs a quick, secure and cost-effective way of establishing and gradually developing their manufacturing capabilities in China. CI3 enables the acquisition of greater market share in China through localized production, full control of manufacturing with a China cost structure, and a minimal initial investment of money and manpower.

CI³ was established in March 2012, and operates as a separate legal entity jointly owned by PTL Group (www.ptl-group.com) and Elan Industries (www.heycafe.com).

CI³ currently occupies 20,000 sqm with capacity to expand. CI3 provides an industrial platform for small scale, high-end manufacturing with production units from 250 sqm and access to our shared facilities such as reception area, canteen and rest areas.

-  **CI³**
-  **Client**

CI³ enables you to set up, start up and run your manufacturing activities in China through our proven **Operational Management Solution:**
