

Changzhou, August 14, 2015

The Changzhou Industrial Incubation Initiative (CI3) would like to welcome Hanita Coatings to the family of clients that have taken residency at the incubator's facilities in the Wujin Economic Zone in Changzhou, China.

For more than 30 years, Hanita has specialized in the development and conversion of coated, laminated and metalized films for a range of industrial and commercial applications. CI3 is delighted to work with an industry leader and a dedicated, caring supplier of exceptional films and laminates that has tremendous experience, knowledge and professional expertise in its industry.

Since 2012, CI3 has been hosting client companies such as Hanita Coatings, and will continue to open its doors for other projects looking for high technology, value added production solutions. CI3 works together with companies in high-end, small scale manufacturing that need a quick, secure and cost-effective industrial platform in China.
